📄 Summary

M.Sc. Computer Science student at **Paderborn University** and software developer with **1.5 years of experience** building and deploying production systems. I learn fast, adapt well to new technologies, and bring my own ideas in early. When I take on a task, I complete it to a high standard, no exceptions. Core stack: **Node.js**, **Express**, **PostgreSQL**, and **React.js**.

🧰 Experience

Aug 2024 – Sept 2025
Self Employed

Freelance Backend Engineer

Backend and integration work for education-sector clients in India

- Integrated the **LanguifyAI REST API** into Fly The Nest through an **Express.js** middleware layer, enabling AI-based interview preparation with automated scoring and cutting the manual grading load on instructors.
- Built an AI-powered audio assistant for Alexi, a kindergarten learning app: integrated the **OpenAI API** for voice responses and interactive quizzes (fruit recognition, counting, early-learning activities).

Feb 2024 – July 2024
Backend Intern

DeetsDigital, India

A software consultancy delivering custom web platforms for education and finance clients.

- Built and maintained a **Node.js/Express** backend for Fly The Nest, an online education platform serving **250+** students, with **Zoom Video SDK** integration in **React.js** for virtual classrooms.
- Optimised **Python/Flask** underwriting APIs, achieving a **40%** runtime reduction through query tuning and caching, cutting operational costs.
- Implemented **OAuth 2.0 SSO** with **Azure AD** and role-based access control, enabling permission-scoped **PowerBI** dashboard access across internal teams.

🎓 Education

Oct 2025 – Present
Paderborn, Germany

M.Sc. Computer Science

Paderborn University

July 2024
India

Bachelor of Technology in Computer Engineering

Pandit Deendayal Energy University

1,5 (sehr gut)

{ } Skills

Frontend: — React.js | Next.js | Astro.js | JavaScript | TypeScript | Tailwind CSS | Vite

Backend: — Node.js | Express.js | Python | Flask | REST APIs | WebSockets

Databases: — PostgreSQL | MySQL | MongoDB | SQLite | Redis

DevOps & Tools: — Docker | AWS (EC2, S3, CloudFront) | CI/CD | Git

Infrastructure & Homelab: — Proxmox | Virtualization | Tailscale | Linux / Debian Server | Nginx | Cloudflare (DNS, Tunnels)

Projects

May 2026 – Present

UAuth: Authentication Methods Web Application

Paderborn University project group

- University project focused on understanding authentication methods, developed using a full **Scrum** process.
- Platform compares **passwords, WebAuthn passkeys, biometric face recognition, and EU Digital Identity Wallet (eIDAS)**.
- Built with **React + TypeScript (Vite)** and **Express.js**.

Dec 2025

Qno - Quantum-Themed Uno Card Game

Course project, Human Factors in Security & Privacy (Prof. Dr. Yasemin Acar)

- Web-based multiplayer card game (**React.js, Node.js, WebSockets**) teaching quantum computing concepts: quantum gates, superposition, entanglement.
- Designed a quantitative survey measuring whether gamified learning improves understanding of quantum threats to cryptography.

Jan 2024

Chorusify: A music guessing game

Personal Project

- Wordle-inspired daily music guessing game featuring **Daily, Multiplayer, and Artist** modes, including a 10-song challenge and leaderboard.
- Integrated the **Deezer Web API** for personalized artist challenges and in-browser audio playback.
- Built with **React 18, TypeScript, Vite, Node.js/Express, PostgreSQL, and Docker**.

Hobbies

Present

Home Lab / Self-Hosted Infrastructure

- **Built and operate** a self-hosted Linux infrastructure stack on personal hardware.
- **Manage** Proxmox VMs, Docker containers, services, users, permissions, and security policies.
- **Engineer** networking with routing, DNS, SSL, Nginx, and Cloudflare Tunnels.
- **Automate** maintenance and operations using scripts and cronjobs.
- **Monitor, troubleshoot, and maintain** services, handling updates, outages, and day-to-day operations end to end.
- **Document** infrastructure, configurations, and operational procedures to keep the environment maintainable.
